

## Webpage Handout

### Creating a Web Page

1. Create a public\_html directory on your eden account. All the files related to your web page should be placed in this directory.
2. Open FUGU – the file transfer client. Create a folder public\_html.
  - a. Right click on the folder you created and then click on the info icon
  - b. FOR REMOTE FILE -> **Owner:** All boxes, **Group:** Read, Execute **Other:** Read, Execute
3. In order to create a webpage we will use Mozilla Composer (Webpage Editor)
  - a. Go to the applications icon
  - b. Double click on Mozilla
4. Window menu -> Composer
  - a. The Composer is like a Word Processing tool; it allows you to change style and size of text, insert tables and bullet lists, change background color.
5. File -> Save as -> Give a Title (e.g. All about Tea) -> Give a name to the file (e.g. tea.html) -> Save it on the Desktop
6. FOR THE ASSIGNMENT THE NAME OF THE FILE HAS TO BE **110.html**
7. Type the word Tea in the composer, select it, use Heading 1, underline the word and make it centered.
8. Go to the next line and change the background color of the page
  - a. Format menu -> Page Colors and Background ...
9. Insert menu -> Horizontal line
10. Insert menu -> Table
  - a. 2 columns, 3 rows
  - b. First column: Company name, Metropolitan Tea Company, Bigelow Tea Company
  - c. Second column: Phone Number, 1-888-244-3569, 1-416-588-0089
11. Make the Company names links
  - a. Select the text
  - b. Insert menu -> Link
    - i. Metropolitan Tea Company -> <http://www.metrotea.com/>
    - ii. Bigelow Tea Company -> <http://www.bigelowtea.com/>
12. Bulleted List
  - a. Tea Flavors (Vanilla Almond Tea, Vanilla Caramel Tea)
13. Search on the internet for an image
  - a. Go to <http://www.bigelowtea.com>
  - b. Right click on an image -> Save image as -> Save the image on the Desktop
  - c. Go to Mozilla composer -> Insert image -> **URL IS RELATIVE TO PAGE LOCATION, DON'T USE ALTERNATIVE TEXT**
14. Add a disclaimer at the bottom:
  - a. The content of the page reflects the opinion of the author
15. Transfer all files (including the image files) to your eden account using **Fugu** from the Dock
16. CHANGE PERMISSIONS OF ALL FILES (INCLUDING IMAGES) THAT WERE TRANSFERRED TO PUBLIC\_HTML ON EDEN
  - a. On Fugu, click on a file and then click on the info icon
  - b. FOR REMOTE FILE -> **Owner:** All boxes, **Group:** Read, Execute **Other:** Read, Execute (Number should be **755**, if not TRY again)
17. Url of the web page is: <http://www.eden.rutgers.edu/~netid/tea.html>
